

Sian Danielle.

The Training Academy

**Microblade
to Machine**

Conversion course.

Introduction

This course is specifically for those who are trained in microblading, wanting to upgrade to machine method of permanent make up for longer lasting effects.

The machine conversion course includes 3 days hands on training with Sian Danielle who has over 7 years' experience specifically in the permanent make up industry.

Sian is a licensed and insured artist and trainer who prides herself on being passionate about her work and ensures plenty of time is dedicated to her students to achieve great results and obtain detailed knowledge specific to permanent make up.

The machine conversion course awards beginners level eyebrow micropigmentation certification in the popular eyebrow styles:

Ombre Eyebrows

This is a soft shaded look that keeps the fronts and tops of the eyebrows even softer. They gradually fade into the base of the eyebrow, which has more definition. This look blends with the client's natural hair (if they have any) and prevents there being any sharp outlined edges.

Powdered Eyebrows

This is a fuller, bolder look than ombre. There is less gradual fading and more defined edges. More of a pencilled make up look.

Course structure

Home Study

At least 30 hours home study is compulsory. The training manual will arrive 6 weeks prior to your technical 1-2-1 training. It is expected to arrive with a substantial understanding of all modules.

Theory Workbook

Arriving along with the home study manual is the theory workbook. This needs completing prior to the technical 1-2-1 training, where it will be assessed.

Technical 1-2-1 Training

This is the practical 1-2-1 training, working on technical skills. This includes observation time whilst shadowing the trainer and live models for the trainee. Close guidance throughout. Lunch, snacks and drinks will be provided.

Case Studies

Case Studies will be a necessity for the trainee to pass. Roughly 12 weeks will be given for the trainee to go away and complete at least 6 models for their portfolio.

Assessment Day

Returning roughly 12 weeks from the technical 1-2-1 training with a completed case study portfolio, the trainee will need to complete a live model for assessment by themselves from start to finish.

Certificate of completion will be awarded if the work is to a high enough standard.

Optional Shadowing

The trainee will have the opportunity to return to shadow the trainer for an extra treatment to reinforce the skills and knowledge learnt. This is not mandatory.

Course breakdown

DAY 1

Introductions and theory

09:00 – 17:00

- Digital Machine
- Full start up kit
- Relaxed atmosphere
- Plenty of key knowledge
- Lifetime support
- Complimentary treatment
- Complementary shadow day once qualified
- ABT accredited Certificate

Course price

Price: £3,500.00

Deposit: £500.00

Price includes VAT. The deposit is needed when booking a training course and is non-refundable. You can however transfer the training once with over 2 weeks' notice.

The full balance needs to be paid no later than 6 weeks before the technical 1-1 training dates, this could delay your Home Study manual to arrive.

A close-up photograph of a woman with dark hair, wearing a light blue surgical mask and black nitrile gloves. She is focused on her work, using a tattoo machine with a blue plastic sheath on a person's arm. The background is blurred, showing a clinical or studio setting.

Sian X

See you soon!

Thank you for choosing to train with us. It is a huge honour and you will have our continued support in the areas you have been taught.
