The Training Academy

## Beginners Eyebrows

Start up course.

# Introduction

The Ombre and Powdered Eyebrow Start Up Course includes four days hands on training with Sian Danielle, who has over 7 years' experience in the permanent make up industry.

Sian is a licensed and insured artist and trainer who prides herself on being passionate about her work and ensures plenty of time is dedicated to her students to achieve great results and obtain detailed knowledge specific to permanent make up.

The Ombre and Powdered Eyebrow Start Up Course awards a beginner's level eyebrow micropigmentation certificate in two popular eyebrow styles:

## **Ombre eyebrows**

This is a soft shaded look that keeps the fronts and tops of the eyebrows even softer. They gradually fade into the base of the eyebrow, which has more definition. This look blends with the client's natural hair (if they have any) and prevents there being any sharp outlined edges.

## **Powdered eyebrows**

This is a fuller, bolder look than ombre. There is less gradual fading and more defined edges. More of a pencilled make up look.

## Home Study

At least 30 hours home study is compulsory. The training manual will arrive 6 weeks prior to your technical 1-2-1 training. You are expected to arrive with a substantial understanding of all modules.

## Theory Workbook

Arriving along with the home study manual is the theory workbook. This needs completing prior to the technical 1-2-1 training, where your work will be assessed.

## Technical 1-2-1 Training

This is practical 1-2-1 training, working on technical skills. This includes observation time whilst shadowing the trainer and live models for the trainee. Close guidance throughout. Lunch, snacks and drinks will be provided.

## Models in Technical Training

You will need to provide your models for your training week, we will send out patch tests to you in your home study pack.

Providing your own models contributes to your case study portfolio, and means you can carry out the 6 week top up in your own setting. If you are traveling a long distance then models may possibly be provided.

## Case Studies

Case studies will be necessary for the trainee to pass the course

Roughly 12 weeks will be given for you to complete the treatment of at least 6 models in your own setting (3x Ombre, 3x Powdered) for your portfolio.

## Assessment Day

Returning roughly 12 weeks from the technical 1-2-1 training, with a completed case study portfolio, you will complete an assessment day. Certificate of completion will be awarded if the work is to a high enough standard.

## Optional Shadowing

The trainee will have the opportunity to return to the studio to shadow the trainer for an extra treatment to reinforce the skills and knowledge learnt. This is not mandatory.

## Course BONUS

Complimentary eyebrow treatment from the trainer to the trainee!

This is not compulsory but allows the trainee to experience first-hand the treatment and healing process, which is invaluable.

This is a great selling and talking point for you to have some amazing Permanent Make Up yourself!
